**Subject:** New schedule for Laboratory Quality Series training  
**Attachments:** LabQualitySeries Schedule Fall 2009\_Spring 2010.xls

Hi Everyone,

The Laboratory Quality Series in-service training will be continuing in the fall, and I'd like to encourage your attendance. These sessions contain important information regarding CLIA requirements and how to implement them in our laboratories. Each session is given twice to accommodate laboratory scheduling.

The schedule for upcoming sessions is attached and will be kept updated on the P drive under "In-Service Training 2009." Fliers are posted and e-mailed to all BLS personnel prior to each session.

Questions regarding the training may be directed to Marcia Stowell, X6283 or Peggy DiNatale, X6243.

Thanks,

Linda
